13. (1) Where it appears to the President of Malta, after consultation with the Corporation -

and that, having regard to all the circumstances, it would be in the national interest, the President of Malta may, after consultation with the Corporation, exercise the power conferred on him by this Part of this Ordinance to impose and vary duties of customs in such manner as he thinks necessary to meet the dumping or the giving of the subsidy:

Provided that, where the President of Malta is not satisfied that the effect of the dumping or of the giving of the subsidy is such as to cause or threaten material injury to an established industry in Malta or is such as to retard materially the establishment of an industry in Malta, the President of Malta shall not exercise that power if it appears to him that to do so would conflict with the obligations of the Government of Malta under the provisions for the time being in force of the General Agreement on Tariffs and Trade concluded at Geneva in 1947.

(2) For the purposes of this Part of this Ordinance imported goods shall be regarded as having been dumped -

- (a) if the export price from the country in which the goods originated is less than the fair market price of the

goods in that country, or

(3) References in this Part of this Ordinance to giving a subsidy are references to giving, directly or indirectly, a bounty or subsidy on the production or export of goods (whether by grant, loan, tax relief or in any other way and whether related directly to the goods themselves, to materials of the goods or to something else), and include -

- (a) the giving of any special subsidy on the transport of a particular product; and
- (b) the giving of favourable treatment to producers or exporters in the course of administering any governmental control over the exchange of currencies where such treatment has the effect of assisting a reduction of the prices of goods offered for export,

but do not include the application of restrictions or charges on the export of materials from any country so as to favour producers in that country who use those materials in goods produced by them.

14. (1) The power which the President of Malta may exercise under this Part of this Ordinance is a power by order to impose on goods of a description specified in the order a duty of customs chargeable on the import of the goods into Malta at a rate specified in the order.

(2) The matters by reference to which the description of goods in an order is framed shall include either the country in which the goods originated or the country from which the goods were exported to Malta.

(3) Subject to the provisions of the last foregoing subarticle, an order under this article may include such provisions with respect to the description of the goods chargeable with duty and with respect to the cases in which duty is chargeable as may appear to the President of Malta to be required for the purposes of this Part of this Ordinance, and in particular -

- (a) provisions limiting the description of the goods by reference to the particular persons or organizations by whom the goods were produced or who were concerned with the production of the goods in some specified manner;
- (b) provisions defining the rate of duty by reference to value or weight or other measure of quantity;

15. (1) Where it appears to the President of Malta, after consultation with the Corporation, that relief under this article should be available as respects a duty imposed by an order under this Part of this Ordinance (being an order made to afford protection against dumping), the President of Malta may, if he thinks fit, in that or a subsequent order under this Part of this Ordinance, apply the provisions of this article in relation to the duty.

(2) Where this article applies in relation to any duty, the importer of any goods chargeable with the duty as being goods originating in or, as the case may be, exported from a specified country may apply to the President of Malta for relief from the duty on those goods.

(3) If on an application so made the President of Malta, after consultation with the Corporation, is satisfied that the export price of the goods from that country with the amount of the duty added to it exceeds the fair market price of the goods in that country, the President of Malta shall notify the Comptroller of the amount of the excess, and the Comptroller shall remit or repay the duty up to that amount.

(4) An application under this article as respects any goods shall not be made more than six months after the duty has been paid on the goods, and in connection with any such application the applicant shall furnish such information and evidence as the President of Malta or the Corporation may require from him for ascertaining the said export price or fair market price.

(5) The foregoing provisions of this article shall have effect in relation to a duty imposed by an order under this Part of this Ordinance (being an order made to afford protection against the giving of a subsidy) as if references to the fair market price in a country were references to the export price from that country increased by such amount, if any, as may be necessary to offset the effect of the giving of the subsidy.

16. (1) The President of Malta may, after consultation with the Corporation, by order provide for the allowance of drawback in respect of all or any duties under this Part of this Ordinance on the export of goods in such circumstances and subject to such conditions as he may specify.

(2) The drawback may be in respect of duty paid on the goods or in respect of duty paid on materials used in the manufacture of the goods and the rate of the drawback may be determined in such manner and by reference to such matters as the President of Malta, after consultation with the Corporation, may specify.

17. (1) The Comptroller may require the importer of any goods to state such facts concerning the goods and their history as he may think necessary to determine whether the goods are goods originating in a country specified in an order under this Part of this Ordinance or are goods exported from any country, and to furnish him in such form as he may require with proof of any statements so made; and if such proof is not furnished to his satisfaction or the required facts are not stated, the goods shall be deemed for the purpose of this Part of this Ordinance to have originated in, or, as the case may be, to have been exported from, such country as he may determine:

VIII. 1982.2.

Provided that the Comptroller shall require proof of the country in which goods originated in relation to any duty under this Part of this Ordinance in the case only of goods exported from such countries as the Minister responsible for industry, after consulting the Corporation, may direct in relation to that duty.

(2) Where an order under this Part of this Ordinance limits the description of goods in respect of which duty is chargeable under this Part of this Ordinance or the cases in which duty is so chargeable so that the question whether any and if so what duty is chargeable on the goods depends on other matters besides the country in which the goods originated or from which they were exported, the Comptroller may also require the importer to state such facts as he may deem necessary to determine that question so far as regards those other matters and to furnish him in such form as he may require with proofs of any statements so made; and if such proof is not furnished to his satisfaction or the required facts are not stated, those facts shall be deemed for the purposes of duty under this Part of this Ordinance to be such as he may determine.

18. (1) In relation to goods imported into Malta the export price from the country in which the goods originated or from which they were exported shall be determined as provided in the following provisions of this article.

Ascertainment of export price.
Amended by:
L.N. 4 of 1963;
XXVII. 1967.20;
XI. 1977.2;
VIII. 1982.2.

(2) If the goods are imported under a contract of sale which is a sale in the open market between buyer and seller independent of each other, and the Minister responsible for industry, after consultation with the Corporation, is satisfied as to that fact, as to the price on that sale and as to such other facts as are material for this purpose, the export price shall be the price on that sale subject to a deduction for the cost of insurance and freight from the port or place of export in the said country to the port or place of import, and for any other costs, charges or expenses incurred in respect of the goods after they left the port or place of export, except so far as any such costs, charges or expenses have to be met separately by the purchaser.

(3) If subarticle (2) does not apply, the Minister responsible for industry, after consultation with the Corporation, shall determine the export price by reference to such sale of the goods (or of any goods in which the first mentioned goods were incorporated) as he may select with such adjustments as may appear to him to be proper.

(4) In this article the reference to a sale in the open market between buyer and seller independent of each other presupposes -

- (a) that the price is the sole consideration; and
- (b) that the price made is not influenced by any commercial, financial or other relationship, whether by contract or otherwise, between the seller or any person associated in business with him and the buyer or any person associated in business with him (other than the relationship created by the sale of the goods in question); and
- (c) that no part of the proceeds of the subsequent re-sale, use or disposal of the goods will accrue either directly or indirectly to the seller or any person associated in business with him.

Ascertainment of fair market price.
Amended by:
L.N. 4 of 1963;
XXIX. 1965.2;
XXVII.1967.20;
XI.1977.2;
VIII.1982.2.

19. (1) The fair market price of any goods in a country shall for the purpose of this Part of this Ordinance be determined as provided in the following provisions of this article.

(2) Subject to the next following subarticle, the fair market price shall be taken to be the price at which goods of the description in question (that is to say, any identical or comparable goods) are being sold in the ordinary course of trade in the said country for consumption or use there, but subject to any necessary adjustments, whether for differences in conditions and terms of sale, for differences in taxation or otherwise, which may be required for the purpose of ensuring that the comparison between the fair market price and the export price is effectively a comparison between the prices on two similar sales.

(3) If it appears to the Minister responsible for industry, after consultation with the Corporation, that goods of that description are not being sold in the said country, or not in such circumstances that the fair market price can be determined in accordance with subarticle (2), the fair market price shall be determined by the Minister responsible for industry, after consultation with the Corporation, by reference to any price obtained for goods of that description when exported from the said country, with adjustments made for the purpose mentioned in subarticle (2), or, if the Minister responsible for industry thinks fit, by reference to the cost or estimated cost of production of the goods the dumping of which is in question, with such additions in respect of selling cost and profit as may appear to the Minister responsible for industry to be proper.

(4) No account shall be taken under this article of any application of restrictions or charges on the export of materials from any country so as to favour producers in that country who use those materials in goods produced by them.

20. (1) Goods shall be regarded for the purposes of this Part of this Ordinance as having originated in a country -

- (a) if those goods were wholly produced in that country; or
- (b) if some stage in the production of the goods was carried out in that country and the cost of carrying out such stages, if any, in the production of the goods as were carried out after those goods last left that country (but before the import of the goods into Malta) was less than twenty-five per cent of the cost of production of the goods as so imported; or
- (c) if some stage in the production of any components or materials incorporated in the goods was carried out in that country and the cost of carrying out such stages in production as were carried out after those components or materials last left that country to convert those components or materials into the goods as imported into Malta was less than twenty-five per cent of the cost of production of the goods as so imported.

Construction of references to country of origin, etc.

Amended by:
L.N. 4 of 1963;
L.N. 46 of 1965;
XXIX.1965.2;
XXVII. 1967.20;
LVIII. 1974.68;
XI.1977.2;
VIII.1982.2.

(2) Where the export price of any goods from the country in which they originated is in question and some stage in the production of the goods, or of any components or materials incorporated in the goods, was carried out after they last left that country, the deductions to be made by the Minister responsible for industry in the price by reference to which the export price is to be ascertained shall include a deduction for the cost of carrying out any such stage in the production of the goods and in the production of any components or materials incorporated in the goods; and the fair market price shall be the fair market price of those goods or, as the case may be, of those components or materials, in the state in which they left that country.

(3) Any reference in this Part of this Ordinance to the country in which goods originated shall be taken, in a case where there are two or more countries which answer to that description, as a reference to any of those countries.

(4) The President of Malta may, after consultation with the Corporation, make rules prescribing for the purposes of this Part of this Ordinance -

- (a) the costs, charges and expenses to be taken into account in ascertaining costs of production or the cost of any stage in production;
- (b) the manner in which cost of production is to be ascertained in cases where different stages are carried out by different persons;
- (c) the manner in which the cost of different stages of production is to be ascertained.
